

Dear competitor of the Honda Marine Cup 2024,

12-09-2024

Instructions regarding the scoring app,

The scoring app will be active from Wednesday evening 12-9 (Score Fishing app)

You need to download this app from your app store on your phone. (**ONLY FOR THE TEAM CAPTAIN**)

For those who already have the app on their phone, this is of course not necessary.

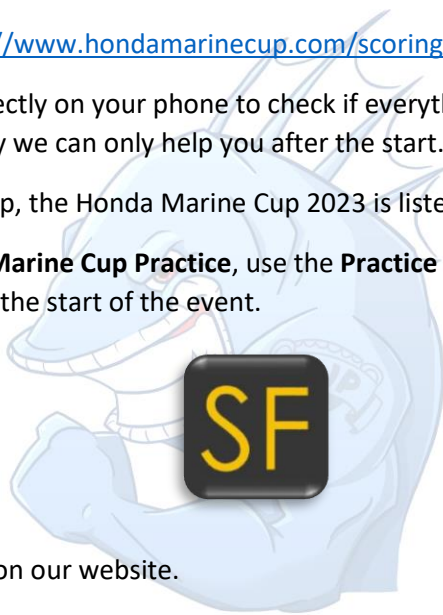

On our website you will find an instructional video about how the app works.

Link to the instructional video: <https://www.hondamarinecup.com/scoring-app>

Make sure you download the app directly on your phone to check if everything works. Do not do this until the last minute before the race, unfortunately we can only help you after the start.

Once logged into the Score Fishing app, the Honda Marine Cup 2023 is listed twice.

Honda marine cup 2024 and **Honda Marine Cup Practice**, use the **Practice** match before the event to get used to the app. This can be done unlimited until the start of the event.

These instructions can also be found on our website.

<https://www.hondamarinecup.com/instructions>

If there are any further questions or uncertainties, we would like to hear from you.

You can then contact us using the contact details below.

Organization Honda Marine Cup
